

## PetroCloud's Newest Covert Surveillance System

PetroCloud's remote surveillance system is now available in a portable and ready-to-use solution. The Mobile Scout is designed for quick set up directly by the user, with no extensive training or technical know-how required. The solution is perfect for short-term deployment, but also rugged enough for long-term use in the field. In fact, the enclosure is so rugged, it can be buried in the ground for extreme covert situations.

## Applications

- ▶ Oil & gas operators
- ▶ Land owners
- ▶ Law enforcement
- ▶ Construction sites
- ▶ Private security
- ▶ Schools

## Standard Service
