Nodify SmartLock
MORE THAN A SMARTLOCK.
A SMART SOLUTION.

Built for the enterprise and designed for rugged, off-grid locations, Nodify SmartLock is the smart, secure way to protect valuable assets, anywhere.

SMART

Authorized users can lock and unlock Nodify SmartLock with a smartphone and the Nodify mobile app, using Bluetooth low-energy technology. No Internet or cell phone network connection is needed.

INTEGRATED

Nodify SmartLock can be fully integrated into your current access control systems and installations. The Nodify platform allows you to view and control all systems (including cameras, doors, gates and individual padlocks) from a single screen.

SECURE

Nodify SmartLock uses double encrypted, military-grade, AES 128-bit encryption, for enhanced security. Every time it is locked or unlocked, the user's name, GPS location and timestamp is recorded, so you know exactly who used it, and when. The SmartLock is also available with a steel-shrouded shackle that cannot be cut.

MONITORED

With every SmartLock, you also get personal service and support. Our Network Operations Center (NOC) monitors access 24/7, providing enterprise-level security you can trust.

RUGGED

Waterproof, weatherproof and impact-resistant, Nodify SmartLock is designed for outdoor or off-grid locations.

KEY BENEFITS

▶ Unlock using mobile device

▶ No internet connection needed to unlock

▶ Designed for rugged, off-grid environments

▶ Issue a single-use unlock code for one-time access

▶ Grant customized access to individuals or groups

▶ Great for secure lockout/tagout (LOTO) situations

▶ Integrates seamlessly with current access control systems

▶ 24/7 monitoring and support

▶ Military-grade encryption

▶ 1-800 number for emergency access

▶ Built for professional & enterprise use

▶ Accommodates multiple users

▶ Fully integrated with Nodify platform systems

▶ Real-time and historic access logs

▶ Inexpensive and easy to use

PetroCloud

Nodify SmartLock

ONE PLATFORM.
ALL DEVICES.

Nodify SmartLocks integrate seamlessly into the Nodify platform, giving you real-time visibility and control over every aspect of your operations—including gates, camera systems, remote monitoring equipment and supplies. Our powerful dashboard makes it easy to monitor, secure and protect your operations from any computer or mobile device, with no equipment to buy, no software to install and no IT infrastructure to maintain. All data is stored securely in the cloud and the system provides full monitoring, recording and reporting capabilities.

Nodify®

TECHNICAL SPECS

▶ **RANGE** A few inches to 15 feet (5meters) BLE

▶ **POWER** (1) CR2 battery 3+ year battery life

▶ **BACKUP POWER** Jump Start to change battery when fully discharged using a 9V battery

▶ **COMPLIANCE** FCC Part 15B

▶ **SHACKLE MATERIAL** Boron hardened shackle

▶ **WATER RESISTANT** IP67

▶ **TEMP RANGE** -40°F to 165°F/-40°C to 74°C

▶ **SHACKLE THICKNESS** 10mm

▶ **BODY** Electroless nickel plating and hardened steel

▶ **STRENGTH TEST RATING** CEN Grade 4

▶ **SHACKLE PROTECTION** Available in a steel shroud that encloses the shackle for added security from bolt cutters

▶ **KEYS** Keys are stored on secure servers to prevent compromising sensitive data

▶ **END-TO-END ENCRYPTION** Double-secured transmissions using end-to-end 128-bit AES encryption

▶ **CUSTOM SECURITY LAYER** Additional custom-built encryption protocol prevents Bluetooth replay attacks compromising sensitive data

CE   FC   RoHS COMPLIANT
